Integrated QA Solution   QA Medivisor Agent (Option)
QA Medivisor Agent providing calibration and QA standard testing capabilities through an intuitive and easy to navigate user interface makes it effective to manage display QA operation in the radiology department. Simplified calibration scheduling tool QA Medivisor Agent LE is included.

* Optional calibration kit CAL-016 is required for standard QA testing.

Built-in Sensor

Ambient Light Sensor
Detects the level of ambient light to offset the effect for optimal calibration.

Color Front Sensor
Stabilizes luminance and color for consistent image quality.

Human Presence Sensor
Automatically switching to power save mode when sensor does not detect human presence.

Space Saving
The new design of the CL-R211 reduces 25% of the stand footprint compared to the conventional models.
DisplayPort Daisy Chains
With the DisplayPort 1.2, the use of daisy chains allows for easier wiring connections.
